## FRONT END DEVELOPER / SOFTWARE ENGINEER

As a Full Stack Developer, my journey through the IT world has been driven by my love for creating user-friendly software and a passion for technology. Over the course of 7+ years in management positions, I've developed a unique blend of technical proficiency and leadership abilities that enable me to lead by example and work with any team to achieve common goals.

### TECHNICAL SKILLS

**Experienced in :** Wordpress, JavaScript, React, Ruby, Redis, Node.js, PostgreSQL, Render, Git, Figma, Kanban, Trello, REST API's, CSS, HTML5, Tailwind, Netlify, Heroku

**Familiar with :** AWS, Google Cloud, MySQL, Redux, Python, PHP, SEO, Typescript

### TECHNICAL PROJECTS

#### **PetSnap-** [Github](#) | [Demo](#)

Share, connect and chat with fellow pet lovers - the ultimate social media app for showcasing your furry friends!

- Incorporated Rails for backend, React for frontend and deployed the app using Render.
- Designated full user authentication
- Created an easy-to-use interface with liking, commenting, replying and live-chatting features
- Utilized dependencies like react-share, react-router-dom, Bootstrap, Material UI and WebSockets.

#### **LocalSearch** - [Github](#) | [Demo](#)

Discover live weather, events, and images of any city, all in one place!

- Implemented a digital real time clock.
- Configured a container to display three types of results: live weather data for the searched city, a gallery of pictures related to the city, and a list of upcoming events taking place in the city.
- Developed a feature enabling users to select from various event categories and providing a link to the SeatGeek website for ticket purchasing.

#### **Bitcoin Web Scraper** - [Github](#)

Simple yet powerful app to scrape the web for Bitcoin at your chosen price!

- Axios to fetch the data from the website, Cheerio to parse the data into HTML, DotEnv to hide my authentication information and Twilio to send a text message as soon as the condition is met.

### EXPERIENCE

#### **Smile Design**

Tampa, Florida

Office Manager

04/2021 - 12/2022

- Assumed responsibility for maintaining the company's website, including updating content and plugins, ensuring website security, and troubleshooting technical issues.
- Developed and implemented a training program that improved customer service ratings by 40% and ensured compliance with HIPAA regulations.
- Digitized patient records and implemented electronic billing systems.

#### **Baker Hill Dental**

09/2019 - 04/2021

Office Manager

Elgin, Illinois

- Managed scheduling and billing processes, resulting in a 60% increase in revenue.
- Led marketing campaigns that increased patient referrals by 30%.
- Assisted with troubleshooting IT issues and worked with the IT team to resolve hardware and software problems.

### EDUCATION

#### **Flatiron School**

Software Engineering, Ruby on Rails, React and JavaScript immersive program

#### **Carol Davila UMF**

Bachelor of Science in General Medicine
